

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

EUPHORION:

Studies of the Antique and the Mediæval in the Renaissance.

SECOND EDITION.

Demy 8vo, Cloth, 7s. 6d.

OPINIONS OF THE PRESS.

"Experience has taught us to expect three things upon opening a book written by Vernon Lee: first, a serious study, conceived in a modern spirit, of the subject matter; second, independent though not necessarily new views of its bearings; and third, an unusual faculty of exposition, in cultivated, ingenious, and often picturesque forms of diction. These are merits, and conspicuous merits. On the other hand, there is a counter-vailing defect, which we have also learnt to look for; this is a habit of over-criticizing and over-writing—an inclination to start an argument and raise a distinction on the slightest provocation—an indisposition to let the reader go when once the subject has been propounded. For a writer concerned with critical inquiry this is, no doubt, a fault on the right side, still it is a fault. 'Euphorion' is the largest and most various book which Vernon Lee has yet produced. It displays her excellences in large measure, and is not exempt from her defect. The book is bold, extensive (it does not aim to be exhaustive) in scope, and replete with well-defined and unhackneyed ideas, clear impressions, and vigorous and persuasive modes of writing. Vernon Lee professes to have studied only certain aspects of the Renaissance, and consequently to have produced a series of essays which only cover a small space of the vast area. She has not, however, shirked difficulties, nor sat down contented with a smattering of knowledge. Large questions have been scrutinized in a comprehensive spirit, and are treated with both breadth and minuteness, according to the scale of the work. . . . Lastly comes the longest essay of all, 'Mediæval Love,' filling nearly one hundred pages. This is certainly a masterly performance."—*Athenæum*, July 5, 1884.

"'Euphorion' is a distinct advance on Vernon Lee's previous work. The impressions it records are as vividly individual as ever, the knowledge which informs it is fuller and riper. It deals with a period incomparably more interesting than the "teacup times of hood and hoop," through whose mazes her first work led us so pleasantly; and it has more unity and continuity than 'Belcaro.' . . . The exquisite paper on 'The Out-door Poetry.'"—*Pall Mall Gazette*.

"Deserves a most cordial welcome as a fresh and original contribution to the history of civilization and art; written in graceful and often eloquent English."—*Spectator*.
